**A unique collection of Rolls Royces and Bentleys in an aesthetically high-quality presentation
Passion, luxury and elegance of these classic English cars in previously unpublished photographs and texts**

Bentley and Rolls-Royce – no other word can more aptly describe the allure of these two automobile marques than “passion”. It is a passion shared by the designers and manufacturers as well as every enthusiast, owner and collector. This volume presents numerous captivating photographs and detailed descriptions of the 27 Bentley and Rolls-Royce automobiles in the Seeger Collection in Liechtenstein. It includes cars which have won many international awards and which were once owned by celebrities such as Sophia Loren or HRH Princess Margaret of England. The centre of the collection is a complete series of Phantom models, beginning with the 1925 Phantom I and progressing to the latest Phantom model.

motors finest – this fascinating book gives a captivating insight into the wide range of artistic and technical innovations as well as the outstanding performance of the two closely connected manufacturers. It is a homage to the art of automobile manufacturing that will fascinate laymen and experts alike!

Peter Müller was born in Herisau, Switzerland in 1941. He spent eight years as technical advisor to the Bentley Drivers Club, Switzerland and has received numerous awards in connection with his work with Bentley and Rolls-Royce cars. Today, he is a popular consultant on the restoration of 1930 to 1975 Rolls-Royce and Bentleys.
